Re: Observance of Driver In-Car Display

Stewards Bulletin No. 3
Date: October 4, 2022
Time: 15:55

Competitors are reminded that the series-required Mandatory Technical Equipment must be properly installed as described in the manufacturer's instructions, and with further guidance from series technical bulletins and Technical Department staff.

The Driver In-Car Display is recognized as a safety signaling device, equivalent to marshal's flags and messages on the official timing screens.

The Driver In-Car Display compliments the marshal's flags. In case of doubt, yellow will prevail irrelevant of its origin.
